**701 ESTABLISHMENT AND ADOPTION OF SCHOOL DISTRICT BUDGET**

**I. PURPOSE**

The purpose of this policy is to establish lines of authority and procedures for the establishment of the school district's revenue and expenditure budgets.

**II. GENERAL STATEMENT OF POLICY**

The policy of the school district is to establish its revenue and expenditure budgets in accordance with the applicable provisions of law. Budget planning is an integral part of program planning so that the annual budget will effectively express and implement school board goals and the priorities of the school district.

**III. REQUIREMENT**

- A. The superintendent or such other school official as designated by the superintendent or the school board shall each year prepare preliminary revenue and expenditure budgets for review by the school board or its designated committee or committees. The preliminary budgets shall be accompanied by such written commentary as may be necessary for them to be clearly understood by the members of the school board and the public. The school board shall review the projected revenues and expenditures for the school district for the next fiscal year and make such adjustments in the expenditure budget as necessary to carry out the education program within the revenues projected.
- B. The school district must maintain separate accounts to identify revenues and expenditures for each building. Expenditures shall be reported in compliance with Minn. Stat. § 123B.76.
- C. Prior to July 1 of each year, the school board shall approve and adopt its initial revenue and expenditure budgets for the next school year. The adopted expenditure budget document shall be considered the school board's expenditure authorization for that school year. No funds may be expended for any purpose in any school year prior to the adoption of the budget document which authorizes that expenditure for that year, or prior to the adoption of an amendment to that budget document by the school board to authorize that expenditure for that year.
- D. Each year, the school district shall publish its adopted revenue and expenditure budgets for the current year, the actual revenues, expenditures, and fund balances for the prior year, and the projected fund balances for the current year in the form prescribed by the Commissioner within one week of the acceptance of the final audit by the school board, or November 30, whichever is earlier. A statement shall be included in the publication that the complete budget in detail may be inspected by any resident of the school district upon request to the superintendent. A summary of this information and the address of the school district's official website where the information can be found must be published in a newspaper of general circulation in the school district. At the same time as this publication, the school district shall publish the other information required by Minn. Stat. § 123B.10.
- E. At the public hearing on the adoption of the school district's proposed property tax levy, the school board shall review its current budget and the proposed property taxes payable in the following calendar year.
- F. The school district must also post the materials specified in Paragraph III.D. above on the school district's official website, including a link to the school district's school report card on the Minnesota Department of Education's website, and publish a summary of information and the address of the school district's website where the information can be found in a qualified newspaper of general circulation in the district.

**IV. IMPLEMENTATION**

- A. The school board places the responsibility for administering the adopted budget with the superintendent. The superintendent may delegate duties related thereto to other school officials, but maintains the ultimate responsibility for this function.

- B. The program-oriented budgeting system will be supported by a program-oriented accounting structure organized and operated on a fund basis as provided for in Minnesota statutes through the Uniform Financial Accounting and Reporting Standards for Minnesota School Districts (UFARS).
- C. The superintendent or the superintendent's designee is authorized to make payments of claims or salaries authorized by the adopted or amended budget prior to school board approval.
- D. Supplies and capital equipment can be ordered prior to budget adoption only by authority of the school board. If additional personnel are provided in the proposed budget, actual hiring may not occur until the budget is adopted unless otherwise approved by the school board. Other funds to be expended in a subsequent school year may not be encumbered prior to budget adoption unless specifically approved by the school board.
- E. The school district shall make such reports to the Commissioner as required relating to initial allocations of revenue, reallocations of revenue, and expenditures of funds.

**705 INVESTMENTS**

**I. PURPOSE**

The purpose of this policy is to establish guidelines for the investment of school district funds.

**II. GENERAL STATEMENT OF POLICY**

The policy of this school district is to comply with all state laws relating to investments and to guarantee that investments meet certain primary criteria.

**III. SCOPE**

This policy applies to all investments of the surplus funds of the school district, regardless of the fund accounts in which they are maintained, unless certain investments are specifically exempted by the school board through formal action.

**IV. AUTHORITY; OBJECTIVES**

- A. The funds of the school district shall be deposited or invested in accordance with this policy, Minn. Stat. Ch. 118A and any other applicable law or written administrative procedures.
- B. The primary criteria for the investment of the funds of the school district, in priority order, are as follows
  - 1. Safety and Security. Safety of principal is the first priority. The investments of the school district shall be undertaken in a manner that seeks to ensure the preservation of the capital in the overall investment portfolio.
  - 2. Liquidity. The funds shall be invested to assure that funds are available to meet immediate payment requirements, including payroll, accounts payable, and debt service.
  - 3. Return and Yield. The investments shall be managed in a manner to attain a market rate of return through various economic and budgetary cycles, while preserving and protecting the capital in the investment portfolio and taking into account constraints on risk and cash flow requirements.

**V. DELEGATION OF AUTHORITY**

- A. The Superintendent of the school district is designated as the investment officer of the school district and is responsible for investment decisions and activities under the direction of the school board. The investment officer shall operate the school district's investment program consistent with this policy. The investment officer may delegate certain duties to a designee or designees but shall remain responsible for the operation of the program.
- B. All officials and employees that are a part of the investment process shall act professionally and responsibly as custodians of the public trust and shall refrain from personal business activity that could conflict with the investment program or which could reasonably cause others to question the process and integrity of the investment program. The investment officer shall avoid any transaction that could impair public confidence in the school district.

**VI. STANDARD OF CONDUCT**

The standard of conduct regarding school district investments to be applied by the investment officer shall be the "prudent person standard." Under this standard, the investment officer shall exercise that degree of judgment and care, under the circumstances then prevailing, that persons of prudence, discretion, and intelligence would exercise in the management of their own affairs, investing not for speculation and considering the probable safety of their capital as well as the probable investment return to be derived from their assets. The prudent person standard shall be applied in the context of managing the overall investment portfolio of the school district. The investment officer, acting in accordance with this policy and exercising due diligence, judgment, and care commensurate with the risk, shall not be held personally responsible for a specific security's performance or for market price changes. Deviations from

expectations shall be reported in a timely manner and appropriate actions shall be taken to control adverse developments.

**VII. MONITORING AND ADJUSTING INVESTMENTS**

The investment officer shall routinely monitor existing investments and the contents of the school district's investment portfolio, the available markets, and the relative value of competing investment instruments.

**VIII. INTERNAL CONTROLS**

The investment officer shall establish a system of internal controls which shall be documented in writing. The internal controls shall be reviewed by the school board and shall be annually reviewed for compliance by the school district's independent auditors. The internal controls shall be designed to prevent and control losses of public funds due to fraud, error, misrepresentation, unanticipated market changes, or imprudent actions by officers, employees, or others. The internal controls may include, but shall not be limited to, provisions relating to controlling collusion, separating functions, separating transaction authority from accounting and record keeping, custodial safekeeping, avoiding bearer form securities, clearly delegating authority to applicable staff members, limiting securities losses and remedial action, confirming telephone transactions in writing, supervising and controlling employee actions, minimizing the number of authorized investment officials, and documenting transactions and strategies.

**IX. PERMISSIBLE INVESTMENT INSTRUMENTS**

The school district may invest its available funds in those instruments specified in Minn. Stat. §§ 118A.04 and 118A.05, as these sections may be amended from time to time, or any other law governing the investment of school district funds. The assets of an other postemployment benefits (OPEB) trust or trust account established pursuant to Minn. Stat. § 471.6175 to pay postemployment benefits to employees or officers after their termination of service, with a trust administrator other than the Public Employees Retirement Association, may be invested in instruments authorized under Minn. Stat. Ch. 118A or § 356A.06, Subd. 7. Investment of funds in an OPEB trust account under Minn. Stat. § 356A.06, Subd. 7, as well as the overall asset allocation strategy for OPEB investments, shall be governed by an OPEB Investment Policy Statement (IPS) developed between the investment officer, as designed herein, and the trust administrator.

**X. PORTFOLIO DIVERSIFICATION; MATURITIES**

- A. Limitations on instruments, diversification, and maturity scheduling shall depend on whether the funds being invested are considered short-term or long-term funds. All funds shall normally be considered short-term except those reserved for building construction projects or specific future projects and any unreserved funds used to provide financial-related managerial flexibility for future fiscal years.
- B. The school district shall diversify its investments to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions or maturities.
  - 1. The investment officer shall prepare and present a table to the school board for review and approval. The table shall specify the maximum percentage of the school district's investment portfolio that may be invested in a single type of investment instrument, such as U.S. Treasury Obligations, certificates of deposit, repurchase agreements, banker's acceptances, commercial paper, etc. The approved table shall be attached as an exhibit to this policy and shall be incorporated herein by reference.
  - 2. The investment officer shall prepare and present to the school board for its review and approval a recommendation as to the maximum percentage of the total investment portfolio that may be held in any one depository. The approved recommendation shall be attached as an exhibit or part of an exhibit to this policy and shall be incorporated herein by reference.
  - 3. Investment maturities shall be scheduled to coincide with projected school district cash flow needs, taking into account large routine or scheduled expenditures, as well as anticipated receipt dates of anticipated revenues. Maturities for short-term and long-term investments shall be timed according to anticipated need. Within these parameters, portfolio maturities shall be staggered to avoid undue concentration of assets and a

specific maturity sector. The maturities selected shall provide for stability of income and reasonable liquidity.

**XI. COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS**

Before the school district invests any surplus funds in a specific investment instrument, a competitive bid or quotation process shall be utilized. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, quotations or bids shall be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend analysis, which includes a yield curve, will normally be used to determine which maturities would be most advantageous. Quotations or bids shall be requested for various options with regard to term and instrument. The school district will accept the quotation or bid which provides the highest rate of return within the maturity required and within the limits of this policy. Generally all quotations or bids will be computed on a consistent basis, i.e., a 360-day or a 365-day yield. Records will be kept of the quotations or bids received, the quotations or bids accepted, and a brief explanation of the decision that was made regarding the investment. If the school district contracts with an investment advisor, bids are not required in those circumstances specified in the contract with the advisor.

**XII. QUALIFIED INSTITUTIONS AND BROKER-DEALERS**

- A. The school district shall maintain a list of the financial institutions that are approved for investment purposes.
- B. Prior to completing an initial transaction with a broker, the school district shall provide to the broker a written statement of investment restrictions which shall include a provision that all future investments are to be made in accordance with Minnesota statutes governing the investment of public funds. The broker must annually acknowledge receipt of the statement of investment restrictions and agree to handle the school district's account in accordance with these restrictions. The school district may not enter into a transaction with a broker until the broker has provided this annual written agreement to the school district. The notification form to be used shall be that prepared by the State Auditor. A copy of this investment policy, including any amendments thereto, shall be provided to each such broker.

**XIII. SAFEKEEPING AND COLLATERALIZATION**

- A. All investment securities purchased by the school district shall be held in third-party safekeeping by an institution designated as custodial agent. The custodial agent may be any Federal Reserve Bank, any bank authorized under the laws of the United States or any state to exercise corporate trust powers, a primary reporting dealer in United States Government securities to the Federal Reserve Bank of New York, or a securities broker-dealer defined in Minn. Stat. § 118A.06. The institution or dealer shall issue a safekeeping receipt to the school district listing the specific instrument, the name of the issuer, the name in which the security is held, the rate, the maturity, serial numbers and other distinguishing marks, and other pertinent information.
- B. Deposit-type securities shall be collateralized as required by Minn. Stat. § 118A.03 for any amount exceeding FDIC, SAIF, BIF, FCUA, or other federal deposit coverage.
- C. Repurchase agreements shall be secured by the physical delivery or transfer against payment of the collateral securities to a third party or custodial agent for safekeeping. The school district may accept a safekeeping receipt instead of requiring physical delivery or third-party safekeeping of collateral on overnight repurchase agreements of less than \$1,000,000.

**XIV. REPORTING REQUIREMENTS**

- A. The investment officer shall generate daily and monthly transaction reports for management purposes. In addition, the school board shall be provided a monthly report that shall include data on investment instruments being held as well as any narrative necessary for clarification.
- B. The investment officer shall prepare and submit to the school board a quarterly investment report that summarizes recent market conditions, economic developments, and anticipated investment conditions. The report shall summarize the investment strategies employed in the most recent quarter and describe the investment portfolio in terms of investment securities, maturities, risk characteristics, and other features. The report shall summarize changes in investment instruments

and asset allocation strategy approved by the investment officer for an OPEB trust in the most recent quarter. The report shall explain the quarter's total investment return and compare the return with budgetary expectations. The report shall include an appendix that discloses all transactions during the past quarter. Each quarterly report shall indicate any areas of policy concern and suggested or planned revisions of investment strategies. Copies of the report shall be provided to the school district's auditor.

- C. Within ninety (90) days after the end of each fiscal year of the school district, the investment officer shall prepare and submit to the school board a comprehensive annual report on the investment program and investment activity of the school district for that fiscal year. The annual report shall include 12-month and separate quarterly comparisons of return and shall suggest revisions and improvements that might be made in the investment program.
- D. If necessary, the investment officer shall establish systems and procedures to comply with applicable federal laws and regulations governing the investment of bond proceeds and funds in a debt service account for a bond issue. The record keeping system shall be reviewed annually by the independent auditor or by another party contracted or designated to review investments for arbitrage rebate or penalty calculation purposes.

#### **XV. DEPOSITORIES**

The school board shall annually designate one or more official depositories for school district funds. The treasurer or the chief financial officer of the school district may also exercise the power of the school board to designate a depository. The school board shall be provided notice of any such designation by its next regular meeting. The school district and the depository shall each comply with the provisions of Minn. Stat. § 118A.03 and any other applicable law, including any provisions relating to designation of a depository, qualifying institutions, depository bonds, and approval, deposit, assignment, substitution, addition, and withdrawal of collateral.

#### **XVI. ELECTRONIC FUNDS TRANSFER OF FUNDS FOR INVESTMENT**

The school district may make electronic fund transfers for investments of excess funds upon compliance with Minn. Stat. § 471.38.

(Minn. Stat. § 123B.88, Subd. 1)
- B. The school district may, in its discretion, also provide transportation to any student to and from school, at the expense of the school district, for any other purpose deemed appropriate by the school board.
- C. In the discretion of the school district, transportation along regular school bus routes may also be provided, where space is available, to any person where such use of a bus does not interfere with the transportation of students. The cost of providing such transportation must be paid by those individuals using these services or some third-party payor. Bus transportation also may be provided along school bus routes when space is available for participants in early childhood family education programs and school readiness programs if these services do not result in an increase in the school district’s expenditures for transportation. (Minn. Stat. § 123B.88, Subd. 10, 11, 12, and 13)
- D. For purposes of stabilizing enrollment and reducing mobility, the school district may, in its discretion, establish a full-service school zone and may provide transportation for students attending a school in that full-service school zone. A full-service school zone may be established for a school that is located in an area with higher than average crime or other social and economic challenges and that provides education, health or human services, or other parental support in collaboration with a city, county, state, or nonprofit agency.

#### **V. TRANSPORTATION OF NONRESIDENT STUDENTS**

- A. If requested by the parent of a nonresident student, the school district shall provide transportation to a nonresident student within its borders at the same level of service that is provided to resident students. (Minn. Stat. § 124D.04, Subd. 7; Minn. Stat. § 123B.92, Subd. 3)
- B. If the school district decides to transport a nonresident student within the student’s resident district, the school district will notify the student’s resident district of its decision, in writing, prior to providing transportation. (Minn. Stat. § 123B.88, Subd. 6)
- C. When divorced or legally separated parents or parents residing separately reside in different school districts and share physical custody of a student, the parents shall be responsible for the transportation of the student to the border of the school district during those times when the

student is residing with the parent in the nonresident school district. (Minn. Stat. § 127A.47, Subd. 3(b))

**VI. TRANSPORTATION OF RESIDENT STUDENTS TO NONDISTRICT SCHOOLS**

- A. In general, the school district shall not provide transportation between a resident student's home and the border of a nonresident district where the student attends school under the Enrollment Options Program. A parent may be reimbursed by the nonresident district for the costs of transportation from the pupil's residence to the border of the nonresident district if the student is from a family whose income is at or below the poverty level, as determined by the federal government. The reimbursement may not exceed the pupil's actual cost of transportation or 15 cents per mile traveled, whichever is less. Reimbursement may not be paid for more than 250 miles per week. (Minn. Stat. § 124D.03, Subd. 8)
- B. Resident students shall be eligible for transportation to and from a nonresident school district at the expense of the school district, if in the discretion of the school district, inadequate room, distance to school, unfavorable road conditions, or other facts or conditions make attendance in the resident student's own district unreasonably difficult or impracticable. The school district, in its discretion, may also provide for transportation of resident students to schools in other districts for grades and departments not maintained in the district, including high school, for the whole or a part of the year or for resident students who attend school in a building rented or leased by the school district in an adjacent district. (Minn. Stat. § 123B.88, Subds. 1 and 4)
- C. In general, the school district is not responsible for transportation for any resident student attending school in an adjoining state under a reciprocity agreement but may provide such transportation services at its discretion. (Minn. Stat. § 124D.041)

**VII. SPECIAL EDUCATION STUDENTS/STUDENTS WITH A DISABILITY/STUDENTS WITH TEMPORARY DISABILITIES**

- A. Upon a request of a parent or guardian, a resident student with a disability who is not yet enrolled in kindergarten, who requires special education services in a location other than the student's home, shall be provided transportation to and from the student's home at the expense of the school district and shall not be subject to any distance requirement. (Minn. Stat. § 123B.88, Subd. 1)
- B. Resident students with a disability whose handicapped conditions are such that the student cannot be safely transported on the regular school bus and/or school bus route and/or when the student is transported on a special route for the purpose of attending an approved special education program shall be entitled to special transportation at the expense of the school district or the day training and habilitation program attended by the student. The school district shall determine the type of vehicle used to transport students with a disability on the basis of the handicapping condition and applicable laws. This provision shall not be applicable to parents who transport their own child under a contract with the school district. (Minn. Stat. § 123B.88, Subd. 19; Minn. Rules Part 7470.1600)
- C. Resident students with a disability who are boarded and lodged at Minnesota state academies for educational purposes, but who also are enrolled in a public school within the school district, shall be provided transportation, by the school district to and from said board and lodging facilities, at the expense of the school district. (Minn. Stat. § 125A.65)
- D. If a resident student with a disability attends a public school located in a contiguous school district and the school district of attendance does not provide special instruction and services, the school district shall provide necessary transportation for the student between the school district boundary and the educational facility where special instruction and services are provided within the school district. The school district may provide necessary transportation of the student between its boundary and the school attended in the contiguous district, but shall not pay the cost of transportation provided outside the school district boundary. (Minn. Stat. § 125A.12)
- E. When a student with a disability or a student with a short-term or temporary disability is temporarily placed for care and treatment in a day program located in another school district and the student continues to live within the school district during the care and treatment, the school district shall provide the transportation, at the expense of the school district, to that student. The school district may establish reasonable restrictions on transportation, except if a Minnesota court

or agency orders the child placed at a day care and treatment program and the school district receives a copy of the order, then the school district must provide transportation to and from the program unless the court or agency orders otherwise. Transportation shall only be provided by the school district during regular operating hours of the school district. (Minn. Stat. § 125A.15(b); Minn. Stat. § 125A.51(d))

- F. When a nonresident student with a disability or a student with a short-term or temporary disability is temporarily placed in a residential program within the school district, including correctional facilities operated on a fee-for-service basis and state institutions, for care and treatment, the school district shall provide the necessary transportation at the expense of the school district. Where a joint powers entity enters into a contract with a privately owned and operated residential facility for the provision of education programs for special education students, the joint powers entity shall provide the necessary transportation. (Minn. Stat. § 125A.15(c) and (d); Minn. Stat. § 125A.51(e))
- G. Each driver and aide assigned to a vehicle transporting students with a disability will be provided with appropriate training for the students in their care, will assist students with their safe ingress and egress from the bus, will ensure the proper use of protective safety devices, and will be provided with access to emergency health care information as required by law. (Minn. Rules Part 7470.1700)
- H. Any parent of a student with a disability who believes that the transportation services provided for that child are not in compliance with the applicable law may utilize the alternative dispute resolution and due process procedures provided for in Minn. Stat. Ch. 125A. (Minn. Rules Part 7470.1600, Subd. 2)

#### **VIII. HOMELESS STUDENTS**

- A. Homeless students shall be provided with transportation services comparable to other students in the school district. (42 U.S.C. § 11432(e)(3)(C)(i)(III)(cc) and (g)(4)(A))
- B. Upon request by the student's parent, guardian, or homeless education liaison, the school district shall provide transportation for a homeless student as follows:
  - 1. A resident student who becomes homeless and is residing in a public or private shelter location or has other non-shelter living arrangements within the school district shall be provided transportation to and from the student's school of origin and the shelter or other non-shelter location if the shelter or non-shelter location is two or more miles from the school of origin and the student's transportation privileges have not been revoked. (42 U.S.C. § 11432(g)(1)(J)(iii)(I))
  - 2. A resident student who becomes homeless and is residing in a public or private shelter location or has other non-shelter living arrangements outside of the school district shall be provided transportation to and from the student's school of origin and the shelter or other non-shelter location if the shelter or non-shelter location is two or more miles from the school of origin and the student's transportation privileges have not been revoked, unless the school district and the school district in which the student is temporarily placed agree that the school district in which the student is temporarily placed shall provide transportation. (Minn. Stat. § 125A.51(f); 42 U.S.C. § 11432(g)(1)(J)(iii)(II))
  - 3. If a nonresident student is homeless and is residing in a public or private homeless shelter or has other non-shelter living arrangements within the school district, the school district may provide transportation services between the shelter or non-shelter location and the student's school of origin outside of the school district upon agreement with the school district in which the school of origin is located. (Minn. Stat. § 125A.51(f))

#### **IX. AVAILABILITY OF SERVICES**

Transportation shall be provided on all regularly scheduled school days or make-up days. Transportation will not be provided during the summer school break. Transportation may be provided for summer instructional programs for students with a disability or in conjunction with a learning year program. Transportation between home and school may also be provided, in the discretion of the school district, on staff development days. (Minn. Stat. § 123B.88, Subd. 21)

**X. MANNER OF TRANSPORTATION**

The scheduling of routes, establishment of the location of bus stops, manner and method of transportation, control and discipline of school children, the determination of fees, and any other matter relating thereto shall be within the sole discretion, control and management of the school board. The school district may, in its discretion, provide room and board, in lieu of transportation, to a student who may be more economically and conveniently provided for by that means. (Minn. Stat. § 123B.88, Subd. 1)

**XI. RESTRICTIONS**

Transportation by the school district is a privilege and not a right for an eligible student. A student's eligibility to ride a school bus may be revoked for a violation of school bus safety or conduct policies, or violation of any other law governing student conduct on a school bus pursuant to the school district's discipline policy. Revocation of a student's bus riding privilege is not an exclusion, expulsion, or suspension under the Pupil Fair Dismissal Act. Revocation procedures for a student who is an individual with a disability under 20 U.S.C. § 1415 (Individuals with Disabilities Act), 29 U.S.C. § 794 (the Rehabilitation Act), and 42 U.S.C. § 12132, (Americans with Disabilities Act) are governed by these provisions. (Minn. Stat. § 121A.59)

**XII. FEES**

- A. In its discretion, the school district may charge fees for transportation of students to and from extracurricular activities conducted at locations other than school, where attendance is optional. (Minn. Stat. § 123B.36, Subd. 1(10))
- B. The school district may charge fees for transportation of students to and from school when authorized by law. If the school district charges fees for transportation of students to and from school, guidelines shall be established for that transportation to ensure that no student is denied transportation solely because of inability to pay. (Minn. Stat. § 123B.36, Subd. 1(11))
- C. The school district may charge reasonable fees for transportation of students to and from post-secondary institutions for students enrolled under the post-secondary enrollment options program. Families who qualify for mileage reimbursement may use their state mileage reimbursement to pay this fee. (Minn. Stat. § 123B.36, Subd. 1(13))
- D. Where, in its discretion, the school district provides transportation to and from an instructional community-based employment station that is part of an approved occupational experience vocational program, the school district may require the payment of reasonable fees for transportation from students who receive remuneration for their participation in these programs. (Minn. Stat. § 123B.36, Subd. 3)

In addition, all school bus/bus stop misconduct will be reported to the school district's transportation safety director. Serious misconduct may be reported to local law enforcement.
1. School Bus and Bus Stop Rules. The school district school bus safety rules are to be posted on every bus. If these rules are broken, the school district's discipline procedures are to be followed. In most circumstances, consequences are progressive and may include suspension of bus privileges. It is the school bus driver's responsibility to report unacceptable behavior to the school district's Transportation Office/School Office.
  2. Rules at the Bus Stop

(4) Records

Records of school bus/bus stop misconduct will be forwarded to the individual school building and will be retained in the same manner as other student discipline records. Reports of student misbehavior on a school bus or in a bus-loading or unloading area that causes an immediate and substantial danger to the student or surrounding persons or property will be provided by the school district to the Department of Public Safety in accordance with state and federal law.

8. Type III vehicles must be equipped with mirrors as required by law.
9. Any type III vehicle may not stop traffic and may not load or unload before making a complete stop and disengaging gears by shifting into neutral or park. Any type III vehicle used to transport students must not load or unload so that a student has to cross the road, except where not possible or impractical, then the driver or assistant must escort a student across the road. If the driver escorts the student across the road, then the motor must be stopped, the ignition key removed, the brakes set, and the vehicle otherwise rendered immobile.
10. Any type III vehicle used to transport students must carry emergency equipment including:

11. Students will not be regularly transported in private vehicles that are not state inspected as type III vehicles. Only emergency, unscheduled transportation may be conducted in vehicles with a seating capacity of 10 or fewer without meeting the requirements for a type III vehicle. Also, parents may use a private vehicle to transport their own children under a contract with the district. The school district has no system of inspection for private vehicles.
12. All drivers of type III vehicles will be licensed drivers and will be familiar with the use of required emergency equipment. The school district will not knowingly allow a person to operate a type III vehicle if the person has been convicted of an offense that disqualifies the person from operating a school bus.

    - (c) avoiding a loading or unloading location that would require a student to cross a road, or ensuring that the driver or an aide personally escort the student across the road if it is not reasonably feasible to avoid such a location;
    - (d) placing the type III vehicle in "park" during loading and unloading.
    - (e) escorting a student across the road under clause (c) only after the motor is stopped, the ignition key is removed, the brakes are set, and the vehicle is otherwise rendered immobile; and
  - (9) compliance with paragraph V.F. concerning reporting convictions to the employer within ten days of the date of conviction.

**710 EXTRACURRICULAR TRANSPORTATION**

**I. PURPOSE**

The purpose of this policy is to make clear to students, parents, and staff the school district's policy regarding extracurricular transportation.

**II. GENERAL STATEMENT OF POLICY**

The determination as to whether to provide transportation for students, spectators, or participants to and from extracurricular activities shall be made solely by the school district administration. This determination shall include, but is not limited to, the decision to provide transportation, the persons to be transported, the type or method to be utilized, all transportation scheduling and coordination, and any other transportation arrangements or decisions. Employees who are involved in extracurricular activities shall be advised by the administration as to the transportation arrangements made, if any.

**III. ARRANGEMENT OF EXTRACURRICULAR TRANSPORTATION**

School district employees shall not undertake independent arrangement, scheduling, or coordination of transportation for extracurricular activities unless specifically directed or approved by the school district administration. All transportation arrangements made by a school district employee must be approved by a building administrator. If the school district makes no arrangements for extracurricular transportation, students who wish to participate are responsible for arranging for or providing their own transportation.

**IV. NO EMPLOYEE TRANSPORTATION OF STUDENTS WITH PERSONAL VEHICLES**

An employee must not use a personal vehicle to transport one or more students except as provided herein. However, employees may make appropriate transportation arrangements for students as necessary in an emergency or other unforeseeable circumstance.

In a nonemergency situation, an employee must get prior, written approval from the administration before transporting a student in a personal vehicle. If a school vehicle is available, the employee will use the school vehicle. The administration has the sole discretion to make a final determination as to the appropriate use of a personal vehicle to transport one or more students.

If any emergency transportation arrangements are made by employees pursuant to this section, the relevant facts and circumstances shall be reported to the administration as soon thereafter as practicable.

All vehicles used to transport students shall be properly registered and insured.

**V. FEES**

In its discretion, the school district may charge fees for transportation of students to and from extracurricular activities conducted at locations other than school, where attendance is optional.

**711 VIDEO RECORDING ON SCHOOL BUSES**

**I. PURPOSE**

The transportation of students to and from school is an important function of the school district, and transportation by the school district is a privilege and not a right for an eligible student. The behavior of students on the bus is a significant factor in the safety and efficiency of school bus transportation. Student misbehavior increases the potential risks of injury. Therefore, the school district believes that video recording student passengers on the school bus will encourage good behavior and, as a result, promote safety. The purpose of this policy is to establish a school bus video recording system.

**II. GENERAL STATEMENT OF POLICY**

**A. Placement**

1. Each and every school bus owned, leased, contracted, and/or operated by the school district shall be equipped with a fully enclosed box for placement and operation of a video camera and conspicuously placed signs notifying riders that their conversations or actions may be recorded.
2. A video camera will not necessarily be installed in each and every school bus owned, leased, contracted, and/or operated by the school district, but cameras may be rotated from bus to bus without prior notice to students.
3. Video cameras will be placed on a particular school bus, to the extent possible, where the school district has received complaints of inappropriate behavior.

**B. Use of Video Recordings**

1. A video recording of the actions of student passengers may be used by the school district as evidence in any disciplinary action brought against any student arising out of the student's conduct on the bus.
2. A video recording will be released only in conformance with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13 and the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g and the rules and/or regulations promulgated thereunder.
3. Video recordings will be viewed by school district personnel on a random basis and/or when discipline problems on the bus have been brought to the attention of the school district.
4. A video recording will be retained by the school district until relouped or until the conclusion of disciplinary proceedings in which the video recording is used for evidence.

**712 VIDEO SURVEILLANCE OTHER THAN ON BUSES**

**I. PURPOSE**

Maintaining the health, welfare, and safety of students, staff, and visitors while on school district property and the protection of school district property are important functions of the school district. The behavior of individuals who come on to school property is a significant factor in maintaining order and discipline and protecting students, staff, visitors, and school district property. The school board recognizes the value of video/electronic surveillance systems in monitoring activity on school property in furtherance of protecting the health, welfare, and safety of students, staff, visitors, and school district property.

**II. GENERAL STATEMENT OF POLICY**

A. Placement

1. School district buildings and grounds may be equipped with video cameras.
2. Video surveillance may occur in any school district building or on any school district property.
3. Video surveillance will normally not be used in bathrooms or locker rooms, although these areas may be placed under surveillance by individuals of the same sex as the occupants of the bathrooms or locker rooms. Video surveillance in bathrooms or locker rooms will only be utilized in extreme situations, with extraordinary controls, and only as expressly approved by the superintendent.

B. Use of Video Recordings

1. Video recordings will be viewed by school district personnel on a random basis and/or when problems have been brought to the attention of the school district.
2. A video recording will be released only in conformance with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13 and the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g and the rules and/or regulations promulgated thereunder.

C. Security and Maintenance

1. The school district shall establish appropriate security safeguards to ensure that video recordings are maintained and stored in conformance with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, and the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g, and the rules and/or regulations promulgated thereunder.
2. The school district shall ensure that video recordings are retained in accordance with the school district's records retention schedule.

    - (2) under the general direction of the principal and with the participation of students and faculty members who are responsible for generating the revenue;
    - (3) in a manner which does not produce a deficit or an unreasonably large accumulation of money to a particular student activity fund;
    - (4) for activities which directly benefit the majority of those students making the contributions in the year the contributions were made whenever possible; and
    - (5) in a manner which meets a public purpose.
  - d. Activity accounts of a graduated class will be terminated prior to the start of the school year following graduation. Any residual money from a graduating class activity fund will be removed from the terminated student activity account and deposited into the general fund. Prior to depositing such accounts, all donations or gifts accepted for the specific purpose of the student activity account shall be administered in accordance with the terms of the gift or donation and school district policy.

#### **V. DEMONSTRATION OF ACCOUNTABILITY**

##### **A. Semi-Annual Activity Fund Reports**

The school board will review all new student activity funds and continuing student activity funds for conformity with state law, MAFA requirements, and school district policies and procedures.

B. Annual External Audit

The school board shall direct its independent certified public accountants to audit, examine, and report upon student activity accounts as part of its annual school district audit in accordance with state law.

C. Activity Report

The school board will review an activity report monthly.

**714 FUND BALANCES**

**I. PURPOSE**

The purpose of this policy is to create new fund balance classifications to allow for more useful fund balance reporting and for compliance with the reporting guidelines specified in Statement No. 54 of the Governmental Accounting Standards Board (GASB).

**II. GENERAL STATEMENT OF POLICY**

The policy of this school district is to comply with GASB Statement No. 54. To the extent a specific conflict occurs between this policy and the provisions of GASB Statement No. 54, the GASB Statement shall prevail.

**III. DEFINITIONS**

- A. "Assigned" fund balance amounts are comprised of unrestricted funds constrained by the school district's intent that they be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. In funds other than the general fund, the assigned fund balance represents the remaining amount that is not restricted or committed. The assigned fund balance category will cover the portion of a fund balance that reflects the school district's intended use of those resources. The action to assign a fund balance may be taken after the end of the fiscal year. An assigned fund balance cannot be a negative number.
- B. "Committed" fund balance amounts are comprised of unrestricted funds used for specific purposes pursuant to constraints imposed by formal action of the school board and that remain binding unless removed by the school board by subsequent formal action. The formal action to commit a fund balance must occur prior to fiscal year end; however, the specific amounts actually committed can be determined in the subsequent fiscal year. A committed fund balance cannot be a negative number.
- C. "Enabling legislation" means legislation that authorizes a school district to assess, levy, charge, or otherwise mandate payment of resources from external providers and includes a legally enforceable requirement that those resources be used only for the specific purposes listed in the legislation.
- D. "Fund balance" means the arithmetic difference between the assets and liabilities reported in a school district fund.
- E. "Nonspendable" fund balance amounts are comprised of funds that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. They include items that are inherently unspendable, such as, but not limited to, inventories, prepaid items, long-term receivables, non-financial assets held for resale, or the permanent principal of endowment funds.
- F. "Restricted" fund balance amounts are comprised of funds that have legally enforceable constraints placed on their use that either are externally imposed by resource providers or creditors (such as through debt covenants), grantors, contributors, voters, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.
- G. "Unassigned" fund balance amounts are the residual amounts in the general fund not reported in any other classification. Unassigned amounts in the general fund are technically available for expenditure for any purpose. The general fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted, and committed fund balances exceed the total net resources of that fund.
- H. "Unrestricted" fund balance is the amount of fund balance left after determining both nonspendable and restricted net resources. This amount can be determined by adding the committed, assigned, and unassigned fund balances.

**IV. CLASSIFICATION OF FUND BALANCES**

The school district shall classify its fund balances in its various funds in one or more of the following five classifications: nonspendable, restricted, committed, assigned, and unassigned.

**V. MINIMUM FUND BALANCE**

The school district will strive to maintain a minimum unassigned general fund balance of three (3) months of operating expenses.

**VI. ORDER OF RESOURCE USE**

If resources from more than one fund balance classification could be spent, the school district will strive to spend resources from fund balance classifications in the following order (first to last): restricted, committed, assigned, and unassigned.

**VII. COMMITTING FUND BALANCE**

A majority vote of the school board is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.

**VIII. ASSIGNING FUND BALANCE**

The school board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. The board also delegates the power to assign fund balances to the following: superintendent. Assignments so made shall be reported to the school board on a monthly basis, either separately or as part of ongoing reporting by the assigning party if other than the school board.

An appropriation of an existing fund balance to eliminate a projected budgetary deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance.

**IX. REVIEW**

The school board will conduct an annual review of the sufficiency of the minimum unassigned general fund balance level.

## 721 UNIFORM GRANT GUIDANCE POLICY REGARDING FEDERAL REVENUE SOURCES

### I. PURPOSE

The purpose of this policy is to ensure compliance with the requirements of the federal Uniform Grant Guidance regulations by establishing uniform administrative requirements, cost principles, and audit requirements for federal grant awards received by the school district.

### II. DEFINITIONS

#### A. Grants

1. "State-administered grants" are those grants that pass through a state agency such as the Minnesota Department of Education (MDE).
2. "Direct grants" are those grants that do not pass through another agency such as MDE and are awarded directly by the federal awarding agency to the grantee organization. These grants are usually discretionary grants that are awarded by the U.S. Department of Education (DOE) or by another federal awarding agency.

B. "Non-federal entity" means a state, local government, Indian tribe, institution of higher education, or nonprofit organization that carries out a federal award as a recipient or subrecipient.

C. "Federal award" has the meaning, depending on the context, in either paragraph 1. or 2. of this definition:

1. a. The federal financial assistance that a non-federal entity receives directly from a federal awarding agency or indirectly from a pass-through entity, as described in 2 C.F.R. § 200.101 (Applicability); or
- b. The cost-reimbursement contract under the federal Acquisition Regulations that a non-federal entity receives directly from a federal awarding agency or indirectly from a pass-through entity, as described in 2 C.F.R. § 200.101 (Applicability).
2. The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of 2 C.F.R. § 200.40 (Federal Financial Assistance), or the cost-reimbursement contract awarded under the federal Acquisition Regulations.
3. "Federal award" does not include other contracts that a federal agency uses to buy goods or services from a contractor or a contract to operate federal-government-owned, contractor-operated facilities.

D. "Contract" means a legal instrument by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. The term, as used in 2 C.F.R. Part 200, does not include a legal instrument, even if the non-federal entity considers it a contract, when the substance of the transaction meets the definition of a federal award or subaward.

#### E. Procurement Methods

1. "Procurement by micro-purchase" is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold (generally \$3,000, except as otherwise discussed in 48 C.F.R. Subpart 2.1 or as periodically adjusted for inflation).
2. "Procurement by small purchase procedures" are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than \$150,000 (periodically adjusted for inflation).
3. "Procurement by sealed bids (formal advertising)" is a publicly solicited and a firm, fixed-price contract (lump sum or unit price) awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price.
4. "Procurement by competitive proposals" is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is

awarded. Competitive proposals are generally used when conditions are not appropriate for the use of sealed bids.

5. "Procurement by noncompetitive proposals" is procurement through solicitation of a proposal from only one source.
- F. "Equipment" means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which exceeds the lesser of the capitalization level established by the non-federal entity for financial statement purposes, or \$5,000.
- G. "Compensation for personal services" includes all remuneration, paid currently or accrued, for services of employees rendered during the period of performance under the federal award, including, but not necessarily limited to, wages and salaries. Compensation for personal services may also include fringe benefits which are addressed in 2 C.F.R. § 200.431 (Compensation - Fringe Benefits).
- H. "Post-retirement health plans" refer to costs of health insurance or health services not included in a pension plan covered by 2 C.F.R. § 200.431(g) for retirees and their spouses, dependents, and survivors.
- I. "Severance pay" is a payment in addition to regular salaries and wages by the non-federal entities to workers whose employment is being terminated.
- J. "Direct costs" are those costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.
- K. "Relocation costs" are costs incident to the permanent change of duty assignment (for an indefinite period or for a stated period not less than 12 months) of an existing employee or upon recruitment of a new employee.
- L. "Travel costs" are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the school district.

### III. CONFLICT OF INTEREST

- A. Employee Conflict of Interest. No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The employees, officers, and agents of the school district may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, the school district may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by employees, officers, or agents of the school district.
- B. Organizational Conflicts of Interest. The school district is unable or appears to be unable to be impartial in conducting a procurement action involving the related organization because of relationships with a parent company, affiliate, or subsidiary organization.
- C. Disclosing Conflicts of Interest. The school district must disclose in writing any potential conflict of interest to MDE in accordance with applicable federal awarding agency policy.

### IV. ACCEPTABLE METHODS OF PROCUREMENT

- A. General Procurement Standards. The school district must use its own documented procurement procedures which reflect applicable state laws, provided that the procurements conform to the applicable federal law and the standards identified in the Uniform Grant Guidance.
- B. The school district must maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.
- C. The school district's procedures must avoid acquisition of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives and any other appropriate analysis to determine the most economical approach.
- D. The school district must award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past

- performance, and financial and technical resources.
- E. The school district must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: rationale for the method of procurement; selection of the contract type; contractor selection or rejection; and the basis for the contract price.
- F. The school district alone must be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the school district of any contractual responsibilities under its contracts.
- G. The school district must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.
- H. Methods of Procurement. The school district must use one of the following methods of procurement:
1. Procurement by micro-purchases. To the extent practicable, the school district must distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive quotations if the school district considers the price to be reasonable.
  2. Procurement by small purchase procedures. If small purchase procedures are used, price or rate quotations must be obtained from an adequate number of qualified sources.
  3. Procurement by sealed bids (formal advertising).
  4. Procurement by competitive proposals. If this method is used, the following requirements apply:
    - a. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical;
    - b. Proposals must be solicited from an adequate number of qualified sources; The school district must have a written method for conducting technical evaluations of the proposals received and for selecting recipients; Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and
    - c. The school district may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method where price is not used as a selection factor can only be used in procurement of A/E professional services; it cannot be used to purchase other types of services, though A/E firms are a potential source to perform the proposed effort.
  5. Procurement by noncompetitive proposals. Procurement by noncompetitive proposals may be used only when one or more of the following circumstances apply:
    - a. The item is available only from a single source;
    - b. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
    - c. The DOE or MDE expressly authorizes noncompetitive proposals in response to a written request from the school district; or
    - d. After solicitation of a number of sources, competition is determined inadequate.
- I. Competition. The school district must have written procedures for procurement transactions. These procedures must ensure that all solicitations:
1. Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When making a clear and accurate description of the technical requirements is impractical or uneconomical, a "brand name or equivalent" description may be used as a means to define the performance or other

- salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and
2. Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.
- J. The school district must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the school district must not preclude potential bidders from qualifying during the solicitation period.
  - K. Non-federal entities are prohibited from contracting with or making subawards under "covered transactions" to parties that are suspended or debarred or whose principals are suspended or debarred. "Covered transactions" include procurement contracts for goods and services awarded under a grant or cooperative agreement that are expected to equal or exceed \$25,000.
  - L. All nonprocurement transactions entered into by a recipient (i.e., subawards to subrecipients), irrespective of award amount, are considered covered transactions, unless they are exempt as provided in 2 C.F.R. § 180.215.

#### V. **MANAGING EQUIPMENT AND SAFEGUARDING ASSETS**

- A. Property Standards. The school district must, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired or improved with federal funds as provided to property owned by the non-federal entity. Federally owned property need not be insured unless required by the terms and conditions of the federal award.  
The school district must adhere to the requirements concerning real property, equipment, supplies, and intangible property set forth in 2 C.F.R. §§ 200.311, 200.314, and 200.315.
- B. Equipment  
Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part under a federal award, until disposition takes place will, at a minimum, meet the following requirements:
  1. Property records must be maintained that include a description of the property; a serial number or other identification number; the source of the funding for the property (including the federal award identification number (FAIN)); who holds title; the acquisition date; the cost of the property; the percentage of the federal participation in the project costs for the federal award under which the property was acquired; the location, use, and condition of the property; and any ultimate disposition data, including the date of disposition and sale price of the property.
  2. A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
  3. A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft must be investigated.
  4. Adequate maintenance procedures must be developed to keep property in good condition.
  5. If the school district is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

#### VI. **FINANCIAL MANAGEMENT REQUIREMENTS**

- A. Financial Management. The school district's financial management systems, including records documenting compliance with federal statutes, regulations, and the terms and conditions of the federal award, must be sufficient to permit the preparation of reports required by general and program-specific terms and conditions; and the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the federal statutes, regulations, and the terms and conditions of the federal award.
- B. Payment. The school district must be paid in advance, provided it maintains or demonstrates the willingness to maintain both written procedures that minimize the time elapsing between the transfer of funds and disbursement between the school district and the financial management systems that meet the standards for fund control.  
Advance payments to a school district must be limited to the minimum amounts needed and timed to be in accordance with the actual, immediate cash requirements of the school district in carrying out the purpose of the approved program or project. The timing and amount of advance payments must be as close as is administratively feasible to the actual disbursements by the non-federal entity for direct program or project costs and the proportionate share of any allowable indirect

costs. The school district must make timely payment to contractors in accordance with the contract provisions.

- C. Internal Controls. The school district must establish and maintain effective internal control over the federal award that provides reasonable assurance that the school district is managing the federal award in compliance with federal statutes, regulations, and the terms and conditions of the federal award. These internal controls should be in compliance with guidance in “Standards for Internal Control in the Federal Government,” issued by the Comptroller General of the United States, or the “Internal Control Integrated Framework,” issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The school district must comply with federal statutes, regulations, and the terms and conditions of the federal award.
- The school district must also evaluate and monitor the school district’s compliance with statutes, regulations, and the terms and conditions of the federal award.
- The school district must also take prompt action when instances of noncompliance are identified, including noncompliance identified in audit findings.
- The school district must take reasonable measures to safeguard protected personally identifiable information considered sensitive consistent with applicable federal and state laws regarding privacy and obligations of confidentiality.

## VII. ALLOWABLE USE OF FUNDS AND COST PRINCIPLES

- A. Allowable Use of Funds. The school district administration and board will enforce appropriate procedures and penalties for program, compliance, and accounting staff responsible for the allocation of federal grant costs based on their allowability and their conformity with federal cost principles to determine the allowability of costs.
- B. Definitions
1. “Allowable cost” means a cost that complies with all legal requirements that apply to a particular federal education program, including statutes, regulations, guidance, applications, and approved grant awards.
  2. “Education Department General Administrative Regulations (EDGAR)” means a compilation of regulations that apply to federal education programs. These regulations contain important rules governing the administration of federal education programs and include rules affecting the allowable use of federal funds (including rules regarding allowable costs, the period of availability of federal awards, documentation requirements, and grants management requirements). EDGAR can be accessed at: <http://www2.ed.gov/policy/fund/reg/edgarReg/edgar.html>.
  3. “Omni Circular” or “2 C.F.R. Part 200s” or “Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards” means federal cost principles that provide standards for determining whether costs may be charged to federal grants.
  4. “Advance payment” means a payment that a federal awarding agency or passthrough entity makes by any appropriate payment mechanism, including a predetermined payment schedule, before the non-federal entity disburses the funds for program purposes.
- C. Allowable Costs. The following items are costs that may be allowable under the 2 C.F.R. Part 200s under specific conditions:
1. Advisory councils;
  2. Audit costs and related services;
  3. Bonding costs;
  4. Communication costs;
  5. Compensation for personal services;
  6. Depreciation and use allowances;
  7. Employee morale, health, and welfare costs;
  8. Equipment and other capital expenditures;
  9. Gains and losses on disposition of depreciable property and other capital assets and substantial relocation of federal programs;
  10. Insurance and indemnification;
  11. Maintenance, operations, and repairs;
  12. Materials and supplies costs;

13. Meetings and conferences;
14. Memberships, subscriptions, and professional activity costs;
15. Security costs;
16. Professional service costs;
17. Proposal costs;
18. Publication and printing costs;
19. Rearrangement and alteration costs;
20. Rental costs of building and equipment;
21. Training costs; and
22. Travel costs.

D. Costs Forbidden by Federal Law. 2 CFR Part 200s and EDGAR identify certain costs that may never be paid with federal funds. The following list provides examples of such costs. If a cost is on this list, it may not be supported with federal funds. The fact that a cost is not on this list does not mean it is necessarily permissible. Other important restrictions apply to federal funds, such as those items detailed in the 2 CFR Part 200s; thus, the following list is not exhaustive:

1. Advertising and public relations costs (with limited exceptions), including promotional items and memorabilia, models, gifts, and souvenirs;
2. Alcoholic beverages;
3. Bad debts;
4. Contingency provisions (with limited exceptions);
5. Fundraising and investment management costs (with limited exceptions);
6. Donations;
7. Contributions;
8. Entertainment (amusement, diversion, and social activities and any associated costs);
9. Fines and penalties;
10. General government expenses (with limited exceptions pertaining to Indian tribal governments and Councils of Government (COGs));
11. Goods or services for personal use;
12. Interest, except interest specifically stated in 2 C.F.R. § 200.441 as allowable;
13. Religious use;
14. The acquisition of real property (unless specifically permitted by programmatic statute or regulations, which is very rare in federal education programs);
15. Construction (unless specifically permitted by programmatic statute or regulations, which is very rare in federal education programs); and
16. Tuition charged or fees collected from students applied toward meeting matching, cost sharing, or maintenance of effort requirements of a program.

E. Program Allowability

1. Any cost paid with federal education funds must be permissible under the federal program that would support the cost.
2. Many federal education programs detail specific required and/or allowable uses of funds for that program. Issues such as eligibility, program beneficiaries, caps or restrictions on certain types of program expenses, other program expenses, and other program specific requirements must be considered when performing the programmatic analysis.
3. The two largest federal K-12 programs, Title I, Part A, and the Individuals with Disabilities Education Act (IDEA), do not contain a use of funds section delineating the allowable uses of funds under those programs. In those cases, costs must be consistent with the purposes of the program in order to be allowable.

F. Federal Cost Principles

1. The Omni Circular defines the parameters for the permissible uses of federal funds. While many requirements are contained in the Omni Circular, it includes five core principles that serve as an important guide for effective grant management. These core principles require all costs to be:
  - a. Necessary for the proper and efficient performance or administration of the program.
  - b. Reasonable. An outside observer should clearly understand why a decision to spend money on a specific cost made sense in light of the cost, needs, and requirements of the program.

- c. Allocable to the federal program that paid for the cost. A program must benefit in proportion to the amount charged to the federal program – for example, if a teacher is paid 50% with Title I funds, the teacher must work with the Title I program/students at least 50% of the time. Recipients also need to be able to track items or services purchased with federal funds so they can prove they were used for federal program purposes.
  - d. Authorized under state and local rules. All actions carried out with federal funds must be authorized and not prohibited by state and local laws and policies.
  - e. Adequately documented. A recipient must maintain proper documentation so as to provide evidence to monitors, auditors, or other oversight entities of how the funds were spent over the lifecycle of the grant.
- G. Program Specific Fiscal Rules. The Omni Circular also contains specific rules on selected items of costs. Costs must comply with these rules in order to be paid with federal funds.
- 1. All federal education programs have certain program specific fiscal rules that apply. Determining which rules apply depends on the program; however, rules such as supplement, not supplant, maintenance of effort, comparability, caps on certain uses of funds, etc., have an important impact when analyzing whether a particular cost is permissible.
  - 2. Many state-administered programs require local education agencies (LEAs) to use federal program funds to supplement the amount of state, local, and, in some cases, other federal funds they spend on education costs and not to supplant (or replace) those funds. Generally, the “supplement, not supplant” provision means that federal funds must be used to supplement the level of funds from non-federal sources by providing additional services, staff, programs, or materials. In other words, federal funds normally cannot be used to pay for things that would otherwise be paid for with state or local funds (and, in some cases, with other federal funds).
  - 3. Auditors generally presume supplanting has occurred in three situations:
    - a. School district uses federal funds to provide services that the school district is required to make available under other federal, state, or local laws.
    - b. School district uses federal funds to provide services that the school district provided with state or local funds in the prior year.
    - c. School district uses Title I, Part A, or Migrant Education Program funds to provide the same services to Title I or Migrant students that the school district provides with state or local funds to nonparticipating students.
  - 4. These presumptions apply differently in different federal programs and also in schoolwide program schools. Staff should be familiar with the supplement not supplant provisions applicable to their program.
- H. Approved Plans, Budgets, and Special Conditions
- 1. As required by the Omni Circular, all costs must be consistent with approved program plans and budgets.
  - 2. Costs must also be consistent with all terms and conditions of federal awards, including any special conditions imposed on the school district’s grants.
- I. Training
- 1. The school district will provide training on the allowable use of federal funds to all staff involved in federal programs.
  - 2. The school district will promote coordination between all staff involved in federal programs through activities, such as routine staff meetings and training sessions.
- J. Employee Sanctions. Any school district employee who violates this policy will be subject to discipline, as appropriate, up to and including the termination of employment.
- VIII. COMPENSATION – PERSONAL SERVICES EXPENSES AND REPORTING**
- A. Compensation – Personal Services
- Costs of compensation are allowable to the extent that they satisfy the specific requirements of the Uniform Grant Guidance and that the total compensation for individual employees:
- 1. Is reasonable for the services rendered and conforms to the established written policy of the school district consistently applied to both federal and non-federal activities; and
  - 2. Follows an appointment made in accordance with a school district’s written policies and meets the requirements of federal statute, where applicable.

Unless an arrangement is specifically authorized by a federal awarding agency, a school district must follow its written non-federal, entitywide policies and practices concerning the permissible extent of professional services that can be provided outside the school district for non-organizational compensation.

B. Compensation – Fringe Benefits

1. During leave.  
The costs of fringe benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, family-related leave, sick leave, holidays, court leave, military leave, administrative leave, and other similar benefits, are allowable if all of the following criteria are met:
  - a. They are provided under established written leave policies;
  - b. The costs are equitably allocated to all related activities, including federal awards; and
  - c. The accounting basis (cash or accrual) selected for costing each type of leave is consistently followed by the school district.
2. Such benefits must be allocated to federal awards and all other activities in a manner consistent with the pattern of benefits attributable to the individuals or group(s) of employees whose salaries and wages are chargeable to such federal awards and other activities and charged as direct or indirect costs in accordance with the school district's accounting practices.
3. Costs incurred by employees and officers for travel, including costs of lodging, other subsistence, and incidental expenses, must be considered reasonable and otherwise allowable only to the extent

such costs do not exceed charges normally allowed by the school district in its regular operations according to the school district's written reimbursement and/or travel policies. In addition, when costs are charged directly to the federal award, documentation must justify the following:
