Mother's Day

Keane M. 10th

Mother's Day is a celebration that is in honor of mothers where families and friends are nice to mother. Some people will give gifts, and some will give flowers. In the United States we celebrate Mother's Day on the second Sunday in May but there are more than 50 countries that celebrate Mother's Day, and they celebrate in different months. The first Mother's Day was celebrated May 12, 1907, and it was first invented by a women's group in a West Virginia church.

Love Type

Justice S.T. 10th

If you are experiencing love for the first time, then you should know that you'll act out of character. New love will supercharge our emotions and consume our thoughts. Romantic love has been studied by experts and it showed that it goes deeper than lust. Since you've been with that one person for a long period of time, your body and mind will subconsciously think back to your significant other. In the beginning of relationships there is a thing called googly eyes. It typically happens when a couple has been together for less than a year. Googly eyes trigger waves of emotions of desire and want. Love is linked to the driven, focused, and motivated side of the brain.

Facts about Saturn

Emma S. 9th

Saturn is full of mostly hydrogen and helium. Saturn is a yellow-brown color with a reddish tint in some areas. There is also a ring surrounding the planet called “Saturn's Rings” or “The Rings of Saturn” and the rings are not solid; they are mostly made out of ice and water. Saturn is the 16th planet away from the earth. The weather on Saturn is very cold to very hot. The temperatures vary from -207 to 80 degrees and winds of 225 to 1000 miles per hour! The length of a day on Saturn is 10 hours and 34 minutes, that is the amount of time it takes for Jupiter to spin around once.

Fourth of July

Ayden O. 10th

Fourth of July is the celebration of America gaining its independence from Britain. We celebrate it every year on the Fourth of July. A lot of people like to go to the lake for the weekend, do some fishing, ride the boat around the lake and just hang out with family and friends. And most people set off fireworks once it gets dark. The Fourth of July is a fun time for just about everyone in America.
